The interior of the building is a vast, open space with a high ceiling. The architecture is modern, featuring large, curved walls and a series of long, horizontal light fixtures that create a rhythmic pattern of light and shadow. The floor is made of polished stone tiles, reflecting the overhead lights. The overall atmosphere is one of grandeur and elegance, with a focus on clean lines and geometric forms. The lighting is carefully designed to highlight the architectural details and create a sense of depth and dimension. The space is designed to be a versatile venue for various events, from formal dinners to large-scale performances. The architecture is a blend of traditional and modern styles, with a focus on creating a unique and memorable experience for the visitor. The interior is a testament to the power of light and shadow in creating a sense of place and atmosphere.
